49th Symposium on Mathematical Physics

Toruń, Poland, June 17–18, 2017

Posters are displayed near the lecture hall 20

POSTERS

1. A. Czerwiński (Toruń): Applications of the Fedorov theorem to quantum tomography
2. J. Łodyga (Poznań): Measurement uncertainty from no-signaling and non-locality
3. A. Messina (Palermo): Quantum dynamics of two coupled spins under controllable and fluctuating magnetic fields
4. M. Ostaszewski (Gliwice): Spontaneous moralization problem in quantum stochastic walk
5. M. Ostrowski (Łódź): Simulation of quantum resonance in a quantum register
6. R. Wojnar (Warsaw): Thermodynamics of random walk
